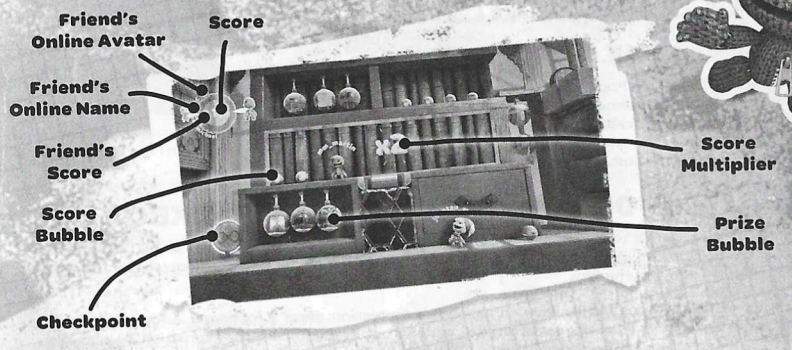
THE GAME SCREEN



USING YOUR POD

Your Pod is your gateway to the entire LittleBigPlanet™ 2 universe. It may be empty when you get inside it for the first time, but after a bit of exploring you'll pick up loads of stickers and decorations to help brighten things up. The Wireless Controller in your Pod acts as a mini navigational computer: put your Sackboy or Sackgirl in front of it and press the ○ button to decide where you want to go next.

STORY

Make your way across the LittleBigPlanet™ 2 globe to discover the weird and wonderful worlds invented by the Creator Curators. The first place you'll visit is Da Vinci's Hideout: it's the perfect location to learn the basic tricks and skills you'll need to set off on a successful adventure.

COMMUNITY

Go online and connect with like-minded creators across the globe. For more info, please see the "Getting Started Online" section later in this manual.

RECENT ACTIVITY

View or revisit any levels you and your friends have recently played or published online.

STORE

PlayStation®Store is the place to go if you want to buy shiny new toys, tools and costumes for Sackboy to play with. Be sure to check back regularly for the latest offers and updates.

START MENU

Press the START button during gameplay and the Start Menu will be displayed. Choose Return to Pod to leave the current level or Replay to play it again from the start. Select Details to learn more about the level you're exploring or highlight Settings to view and alter various LittleBigPlanet™2 in-game options.
